(A) Ensure that each business is conducted in compliance with applicable federal, state and local laws, regulations and ordinances.

(B) This chapter provides a means of identification and regulation for almost all businesses operating within the Airport, as defined in the map attached as Exhibit A, to develop a list of all businesses and valuable information which may be used by emergency responders, building and safety, economic development personnel and the public.

(C) This chapter specifically covers businesses which require additional licensing investigations, such as massage businesses and establishments and others as may be designated from time to time.

(D) Approval and issuance of a business license shall be contingent on full compliance with, including but not limited to, applicable MPAD Ordinance requirements, including all Fire Code, Building Code and Zoning Code requirements and regulations.

(E) This chapter establishes a business license program and not a business license tax. This chapter is not intended to impose any form of taxation on the business community nor to collect in fees more money than is necessary to recover the administrative costs and mandatory State CASp fee(s) associated with processing an application for the issuance or renewal of a business license. No fee charged under the provisions of this ordinance shall be construed as a business license tax.
