Discussion 1. Air Service Update

Executive Director La Pier indicated that passenger traffic has been exceptionally strong and appears to be poised to remain strong during the week of US Open. American Airlines has added a second daily flight to the Dallas – Ft. Worth route for the Open week. From all indications it appears every airline is experiencing strong traffic around the Open.

Some discussion occurred around the increasing traffic and TSA readiness to handle that traffic at the checkpoint. La Pier shared pictures of the traffic at the checkpoint on a Friday morning during a period when Allegiant, Alaska, United and American were all operating simultaneously. While excited to see the traffic increase, the Committee asked that TSA be engaged about their preparation and readiness to handle the increase going forward.

La Pier also shared video and print copies of advertisements the airport will be running during the US Open week. General discussion regarding the placement and timing occurred.

Review 2. Passenger Comment Cards

The passenger comment card report was reviewed by the committee. It was noted that the majority of negative comments received related to restaurant and food services and WiFi problems.

Review 3. Noise Complaint Report

The Noise Complaint Report was reviewed by the Committee. Director Sabo asked about the current status of the Chartered Visual Approach discussions with FAA. La Pier reported that FAA was in the process of considering the environmental impacts of the proposed approach. Once the environmental work is complete FAA should be ready to move the approach to publication. No timetable was presented.
